

The Examiner in paragraph five of the Official Letter suggests that there are species as graphically seen in Figure 6 and 7. It is not clear to counsel if the Examiner means by this that if Group II is elected, namely claims 5, 6, 11 and 12 then a species election must also be made. If that is the case then no species election need be made because Group II has not been elected. However, if the Examiner is willing also to examine claims 5, 6, 11 and 12 then the applicant herewith elects species 1, namely the species graphically seen in Figure 6 without traverse.

Early and favorable examination on the merits of the elected invention is courteously awaited.

Respectfully submitted,

JACOBSON HOLMAN PLLC
